MEGALPIR

Microwave senzor for MEGAL and OKTA

This sensor is a motion switch, which turns on the light on detection of people movement, and turns off after a pre-selected hold-time when there is no people around. A sensor is also built-in to prevent the light switching on when there is sufficient natural light.

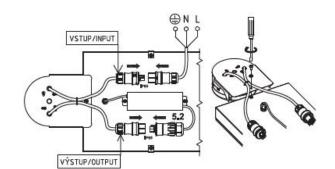

IP65

Set included assembly holder and cables with connectors

Settings after installation with remote controller MEGALPIR/RC or with DIP switches.
